Media Release

12 March 2010

\$194,000 for Armidale Dumaresq community infrastructure projects

\$194,000 for three community infrastructure projects in Armidale has been announced today by the Minister for Infrastructure and Local Government, Anthony Albanese.

The three projects put forward by the community that will be undertaken are the installation of photovoltaic cells at the Armidale Visitors Information Centre, the construction of two skate bowls at Armidale Skate Park and an additional hard court at the Lynches Road Netball Complex providing eleven jobs whilst being constructed.

The Independent Member for New England, Tony Windsor has welcomed the funding under the second round of the Regional and Local Community Infrastructure Program.

“As I have often said, community infrastructure is very important for both large and small communities.

“It provides for community members recreational needs and helps cater for the many and diverse interests of community members making our communities better places to live.

“The Armidale Dumaresq projects will do that and were identified by the local community based on what they need or want and allocated by the Federal Government on a known formula basis.

“I thank Minister Albanese and the Federal Government for their contribution to these projects in Armidale which add further to the projects already announced for other communities in the electorate,” Mr Windsor said.
